## PROFESSIONAL SUMMARY

Data Analyst with hands-on experience delivering end-to-end BI and analytics solutions across finance, healthcare, retail, and marketing. Proficient in SQL, Python, Power BI, Tableau, and Excel — with a track record of building ETL pipelines, MIS reports, KPI dashboards, and trend analysis that translate data into actionable insights for cross-functional stakeholders. Seeking fresher/entry-level Data Analyst roles in Gurugram.

## TECHNICAL SKILLS

**Languages:** Python (Pandas, NumPy, Scikit-learn), SQL (Joins, Window Functions, CTEs, Subqueries, Query Optimisation)

**BI & Reporting:** Power BI (DAX, Power Query, Data Modelling), Tableau, Microsoft Excel (Pivot Tables, VLOOKUP, Advanced Formulas), MIS Reporting

**Databases:** PostgreSQL, MySQL, Google BigQuery, Microsoft Fabric, Cloud Data Warehousing

**Analytics:** Business Intelligence, EDA, Statistical Analysis, Predictive Modelling, Trend Analysis, KPI Reporting, Variance & Root Cause Analysis

**Data Eng.:** ETL Pipeline Design, Data Modelling, Data Cleansing, Data Extraction, Data Validation, Data Wrangling, Reporting Automation

**Soft Skills:** Stakeholder Management, Business Requirements Gathering, Ad Hoc Analysis, Cross-functional Collaboration, Data-driven Decision Making

**Tools:** Git, REST APIs, Jupyter Notebook, VS Code, Google Colab

## ANALYTICS PROJECTS

**Blinkit Sales Analytics Dashboard** — PostgreSQL · Python · Power BI · ETL

- Engineered full-cycle BI pipeline processing 8,523+ transactions tracking \$1.2M revenue; identified Tier 3 regions and low-fat SKUs as primary revenue drivers, enabling data-driven product stocking decisions.
- Automated ETL pipeline and MIS reporting reducing manual refresh by 60%; built interactive dashboard with 15+ DAX measures for stakeholder and executive reporting.

**Meta Ad Performance Analytics Dashboard** — Power BI · DAX · Data Modelling · ETL

- Designed star-schema data model analysing 50 campaigns, 339.8K impressions, and \$2.54M ad spend; developed rolling 7-day CTR and cost-per-conversion DAX measures for budget reallocation.
- Conducted funnel and variance analysis surfacing 11.79% CTR and 0.60% conversion rate; highlighted retargeting gaps to optimise ROAS.

**Healthcare Patient & Billing Dashboard** — Power BI · Power Query · DAX · Forecasting

- Built multi-page dashboard processing 54,966+ records tracking \$1.40B in billing; identified Diabetes and Obesity as highest-billing conditions, supporting resource allocation decisions.
- Integrated time-series forecasting projecting admission trends 6 months forward for proactive capacity planning.

**Customer Churn Prediction Pipeline** — Python · SQL · Power BI · Predictive Modelling

- Built full-cycle churn pipeline on 10,000+ records; logistic regression model achieved 82% accuracy, surfacing top 3 churn drivers. Automated ETL reducing manual prep by 50%.
- Delivered Power BI dashboard with cohort segmentation, KPI reporting, and predictive churn scoring for business stakeholders.

## EXPERIENCE

**Data Analytics Virtual Internship** — Deloitte Australia (via Forage)

Jan 2026 – Mar 2026

*Analytics Consulting Simulation · Tools: Microsoft Excel, Tableau*

- Analysed 10,000+ telemetry records in Excel to detect system anomalies; performed data cleansing, validation, and root cause analysis — mirroring real-world consultant workflows on client data.
- Built an interactive Tableau KPI dashboard consolidating operational metrics; delivered structured stakeholder report translating technical findings into actionable business recommendations.
- Completed all simulation tasks to consultant-assessed standard, earning formal recognition from Deloitte Australia for analytical rigour and data-driven problem-solving.

## EDUCATION

**Master of Computer Applications (MCA)**

2025 – 2027

KR Mangalam University, Gurugram

**Bachelor of Computer Applications (BCA)**

2022 – 2025

Maharshi Dayanand University, Rohtak

## CERTIFICATIONS

Google Data Analytics Professional Certificate (Google/Coursera) · BigQuery for Data Analysts (Google Cloud) · Machine Learning Workshop (KR Mangalam University) · Data Science Certification (Simplilearn)

## KEY ACHIEVEMENTS

- Reduced reporting cycles by up to 70% through ETL automation and dashboard development across 6+ end-to-end BI projects spanning 500K+ records.
- Recognised by Deloitte Australia for consultant-level data analysis, stakeholder communication, and data-driven recommendations during Forage analytics simulation.
